## Approved Maintenance Organization Acceptance Certificate

Reference Number:

KG4R309M

Pursuant to the Civil Aviation Regulations 2004, as amended and subject to the conditions specified below, the Jamaican Civil Aviation Authority hereby certifies:

**CERTIFIED ENGINES UNLIMITED INC.**

of

4000 NW 145<sup>th</sup> St., Bldg. 119 Annex, Opa Locka Airport, FL. 33054 USA

as a maintenance organization accepted to maintain Jamaican-registered aircraft, and/or components for such aircraft, and to issue the related Certificates of Release to Service using their FAR 145 Repair Station approval reference number.

### CONDITIONS

1. The maintenance organization must hold a current and valid FAR 145 Repair Station Air Agency Certificate.
2. The scope of acceptance is limited to such services as are shown on the current FAR 145 Repair Station Air Agency Certificate and the associated operations specifications.
3. This acceptance is valid only when services are provided at the location shown above, unless otherwise approved by the JCAA.
4. Failure to comply with the procedures specified in the organization's approved Inspection Procedures Manual renders this acceptance invalid.
5. Repair Station personnel must be familiar with, and must adhere to, all relevant maintenance procedures specified in the operator's approved Maintenance Control Manual.
6. Subject to compliance with the foregoing conditions, unless surrendered, suspended, or revoked, this approval shall remain valid until midnight on the date of expiry indicated.

Signed:

  
for Director General  
Jamaica Civil Aviation Authority

Issue Date: November 1, 2004

EXPIRY DATE: **October 31, 2006**
